Topic: "THE USE, MISUSE & ABUSE OF PERFORMANCE ENHANCING
PHARMACEUTICALS IN THE TREATMENT OF SEXUAL DISORDERS"

The last decade and a half has seen an explosion in the use of biological agents to treat sexual disfunctions. Despite the help they have offered to truly organically impaired people, in the last decade more and more research and anecdotal information from clinical practice has revealed the misuse of these agents by the general public with very destructive consequences. We will discuss the proper use of medications and other biologically oriented treatments for sexual difficulties commonly encountered, and raise the issue of misuse of these, and consequences attendant thereto.
